

The Ideal Home

The ideal home is that which is furnished in comfort and taste. It is not necessary to have a whole lot of things crowding a room, for you may rest assured that this will give you NO comfort and will be in the worst possible taste.

Select your furniture with the utmost care, for you will have to live with it for many a long day. In fact, you should exercise as much care and judgment in choosing your furniture as in choosing your wife. Of course, there's this difference, that if you get tired of the furniture you can break it up with the axe and get some more, but the law won't allow you to do this with your wife.

With the object of helping those about to furnish, to do so with taste and discrimination, we recently completed a gigantic transformation in the basement of our Mammoth Furniture Building (situate at 827-31 George-st., facing the Postal Parcels Office). Here we have now

Twenty-two Fully Furnished Rooms

each completely fitted for its individual purpose—be it Dining-room, Drawing-room, Bedroom, Hall, Library, Kitchen—and the aim has been to assemble articles which, while fulfilling all the requirements of a modern home, shall harmonise in style, color and general appearance.

We cater for all classes, and the rooms are furnished accordingly. Some contain the choicest creations of the world's Master Craftsmen. (And here we beg leave to state that there is nothing better to be found in Australasia). Others, again, are furnished with high-grade goods at less cost; while in all will be found everything necessary for the home.

The all-pervading principle is to give the maximum value for the money spent.

You are cordially invited to come and inspect the display, and see for yourself how far our ambition has been realised.

Faultless Fitting Footwear

If a Woman's Shoes look well her feet will look well; but a shapely foot counts for nothing in an ill-fitting Shoe. It's the fit of a Shoe that produces foot beauty and comfort.

It is easy to get a proper fitting Shoe at our store, because our expert assistants have such a large number of sizes and shapes to draw from.

Mail orders carefully executed, and freight paid.
